# THE LASER & PHOTONICS MARKETPLACE 2007

**WEDNESDAY 23RD MAY**  
NATIONAL MOTORCYCLE MUSEUM

Bickenhill, Solihull, West Midlands  
B92 0EJ, UK

**FOR TABLE TOP EXHIBITION OPPORTUNITIES**

Please contact Photonics KTN partner Photonics Cluster (UK)

to secure your participation.

Telephone: +44 121 260 6020;

E-mail: [info@photonicscluster-uk.org](mailto:info@photonicscluster-uk.org)

**The UK national event for business leaders, investors, and technology analysts brought to you by the Photonics Knowledge Transfer Network.** The Chief Editors of two of the industry's leading trade publications will present an interactive applications-oriented overview of worldwide laser markets, enabling participants to update themselves on the latest market and technical trends in laser technology.

**HIGHLIGHTS INCLUDE**

REVIEW AND FORECAST OF GLOBAL LASER MARKETS  
**Stephen G. Anderson**, Associate Publisher & Editor-in-Chief Laser Focus World

WORLD MARKETS FOR INDUSTRIAL LASERS AND APPLICATIONS  
**David Belforte**, Publisher & Editor Industrial Laser Solutions

WORLDWIDE MARKET TRENDS FOR OPTOELECTRONIC TECHNOLOGIES  
**Bob Musk**, Optoelectronics Industry Development Association

**ALSO**  
Hear leading industry speakers give technology-focused presentations on fibre lasers, laser processing, other hot topics and industry trends

**HAVE YOUR SAY**

Participants will have the unique opportunity to challenge the Editors to answer questions and discuss all aspects of the industry from market information, technologies in demand and high-growth opportunities. This discussion forum provides you with a brilliant chance to challenge the Editors further on the market information presented earlier, to find out how to get your information published in the industry trade magazines, or raise other thoughts and questions on your mind!

The market information and analysis to be presented at **The Laser and Photonics Marketplace** is derived from the *Laser Focus World* Annual Market Review and Forecast, originally presented at the Lasers & Photonics Marketplace Seminar at Photonics West in January. The Review is conducted annually in conjunction with Strategies Unlimited, an optoelectronics market research company based in Mountain View, CA.

## PROGRAMME '07

10.00 REGISTRATION AND COFFEE

10.20 WELCOME

**Alastair Wilson**, Director of the UK Photonics Knowledge Transfer Network

10.30 REVIEW OF THE GLOBAL LASER MARKETS

**Stephen G. Anderson**, Editor-in-Chief & Associate Publisher, Laser Focus World

Global laser markets are reviewed by laser type and by application in this presentation, which is based on the information presented during Photonics West (San Jose, CA) in January of this year at the Laser & Photonics Marketplace seminar

11.10 WORLD MARKETS FOR INDUSTRIAL LASERS AND APPLICATIONS

**David Belforte**, Editor-in-Chief & Publisher, Industrial Laser Solutions

World markets for industrial lasers and applications are reviewed in detail in this presentation by one of the industry's leading experts. From metal cutting to marking, a quantitative look at the markets by geography and application provides a complete picture of the industrial laser business

11.50 LUNCH

Delegates are invited to visit the table top exhibition comprising providers of business services to the photonics industry - legal, finance, IP experts, exhibitions as well as UK Photonics KTN partners.

13.15 WORLDWIDE MARKET TRENDS FOR OPTOELECTRONICS TECHNOLOGIES

**Bob Musk**, Optoelectronics Industry Development Association

13.45 INDUSTRY TECHNOLOGY SESSION COMPRISING CONTRIBUTIONS FROM:

**Powerlase, GSI Group and SPI Lasers.**

15.00 SPEAKER PANEL DISCUSSION FORUM

**Stephen G. Anderson**, Editor-in-Chief & Associate Publisher, Laser Focus World  
**David Belforte**, Editor-in-Chief & Publisher, Industrial Laser Solutions

The participants will have the opportunity to challenge the Chief Editors of two of the industry's leading publications to answer questions and discuss all aspects of the industry from market information to technology advances

15.30 INFORMAL NETWORKING WITH REFRESHMENTS  
Close 16.00
