

## Employment Vacancies

### TECHNICAL TELECOMMUNICATIONS TRAINERS REQUIRED

Cable Telecommunications Training Services is at the forefront of 21<sup>st</sup> century telecommunications technologies being a leading and innovative training provider. Expansion of our state of the art course portfolio covering evolving and cutting edge technologies has opened up exciting opportunities for full and part time trainers based at our national training centre in Lincoln.

Reporting to the directors you will be empowered to deliver training in the pursuit of excellence providing an unrivalled experience for our customers.

A proven track record in a training role will be required with education to Degree Level or relevant field experience in telecommunications. Assessor and/or teaching qualifications are desirable. You will be responsible for course design, development, delivery and evaluation of theoretical and practical courses.

Our training technologies cover all aspects of the OSI reference model along with City & Guilds and BTEC for Edexcel accredited qualifications at levels 2 and 3, certificates and diplomas.

Applicants are invited to forward their CV and salary expectation to:
